

## Hosting Appeal

Dear Visitor. The Tap has become increasingly busy and we can't stay online without your help. We need a hosting account upgrade to help cope with the increased activity and keep this free blog online. In this age of great change The Tap is a valuable independent resource where we can come together and share information the controlling parasites would rather we didn't have. Please help if you can and donate a small amount towards the hosting costs. Your donation will make a huge difference. Thank you in advance. [Click here to donate](#)

## Trump's highway to hell

Greenlanders want independence. The locals see that Denmark abandoned Greenland decades ago. If Greenland goes independent, that will join the UN and they say they won't antagonise other members which includes Russia.

Trump's war against the BRICS is much more complicated. Peace in Ukraine isn't looking like a 24 hour job. Russia's winning on the battlefield and won't concede any of her primary aims in the war.

Pepe Escobar doesn't see a very high calibre of the people appointed by Trump. The guy appointed to relate with ASEAN by the Pentagon can't even name the countries that are members of ASEAN. It's not very encouraging, and all those Zionists – oh my God! It's a highway to hell. Facilitating genocide works.

Domestically Trump will be at war with most of the Deep State, and there is no certainty he will win.

Trump will have to manage the American defeat vis a vis Russia. He must sell this to the American public and also to the Deep State. Which is impossible. He will have to big up little victories, and change the subject. The US is a fragmented dissolving nation. The Deep State will do everything they can to sabotage Trump. His appointment of Bolton is dangerous. His other appointees to his inner circle are ignorant and useless.

China and Russia are signing a cooperation deal as we speak – the North South corridor along with the northern sea route. Russia, India and China are moving on while Trump's inner circle couldn't even find these projects on a map. To Russia Trump threatens more sanctions if Putin won't sign a peace deal. It's ludicrous. Trump's team are a bunch of illiterates. They don't care about America and see 97% of the population as disposable. The American Dream is dead. The whole system is dead. Los Angeles is destroyed. They don't care. They are bothered about petty politics inside the bubble. The bubble works in a parallel economy which has nothing to do with the economy at large.

Musk is Trump's sidekick who may even be more important than Trump. He is essentially a Deep State character or asset and he openly interferes in foreign policy everywhere. It is comic and sinister.

Europe is being reduced to the role of a yapping chihuahua, but Europe is required to consume American products, and Germany's economy should be saved. But Trump wants to emasculate what's left of the EU and NATO. He now wants 5% Defence Spend, and the chihuahuas are terrified. Maybe Germany needs cheap gas. How will Germany deal with Poland and the Baltic chihuahuas? Trump is saying spend 5% or start learning Russian or move to New Zealand. The Head of NATO is saying the same thing.

Spirited from Pepe.
